

# COMPARTMENT FISH CASES

CA12 - CA18 - CA34

CA12

CA18

CA34

## Features

Case model CA12	Case model CA34 - CA18
Made of high density polyethylene (HDPE)	Made of polypropylene (PP)
Stackable, with drainage and closed bottom	Stackable, equipped with closed bottom, folding side panels and label with Data Matrix code - Barcode EAN128
Operating temperature: the boxes are suitable for use at temperatures between -10 and +50 degrees centigrade	Operating temperature: the boxes are suitable for use at temperatures between -10 and +50 degrees centigrade
Blue in colour, they are dedicated to the fishing industry	
Suitable for transporting fish produce in bulk with ice	Suitable for transporting packaged fish produce
Specifically designed for food, are easily washable and do not undergo tare movements	
Hygienic packaging guaranteed by washing after each use	

## Advantages

- Optimal transport packaging that guarantees freshness and quality of goods throughout the production chain, particularly for fish produce, from the producer to large-scale distribution.
- Optimum protection during transport guaranteed by stability and rounded internal corners
- Significant reduction of damage to goods during transport and storage
- Reusable packaging system
- Completely recyclable in every part, CPR System crates eliminate any packaging waste which would impact the environment
